KUS301 Intense Ephesus: The Iconic Attractions & Archaeological Museum

Duration: 6.5 Hours

Activity Level: Moderate

Meal: Lunch

PRICE: US\$105.00

Spend a wonderful day exploring all the main highlights of Ephesus and later, enjoy an authentic Turkish lunch.

Your day begins with a drive to the Virgin Mary's House. Archaeological evidence dates the small house back to the 6th century; however, the foundations date back to the 1st century. Although there is no conclusive evidence Mary ever lived here, it has become a Catholic shrine and been visited by several Catholic popes and Catholic pilgrims.

Next, make your way to the Ephesus ruins, a UNESCO World Heritage Site that dates to the 3rd-century BC. One of the largest Roman archaeological sites in the area, it was also where the Temple of Artemis once stood, one of the Seven Wonders of the Ancient World. Today, you are able to see the numerous remains of the city which include the spectacular 2-story Library of Celsus, the Odeon Theater and the 24,000 seat Great Amphitheater where St. Paul once preached. The perfect acoustics of this theater still make it a viable venue for magical musical performances today.

The next stop is the Ephesus Archaeological Museum in Selcuk. The small museum houses an incredible collection of Hellenistic and Roman statues, carved reliefs and numerous artifacts unearthed from the ruins of Ephesus. It is also home to the famous statue of Artemis (goddess of fertility).

Leaving the museum, you'll be treated to a traditional Turkish lunch before continuing on to the ruins of the Basilica of St. John. The Basilica was constructed with four domes along a longitudinal axis and a pair flanking the central dome to form the arm of the cross. Beneath the central dome was the grave of St. John.

Returning to Kusadasi, there will be time for exploring on your own, shopping or an optional carpet demonstration.

Special Note: This tour includes nearly 3 hours of moderate walking/standing that includes numerous steps and uneven surfaces. The tour is not available to wheelchair guests and is not considered suitable for those with walking difficulties. We recommend wearing weather appropriate comfortable clothing, walking shoes, a sun cap, sunglasses, and sunscreen. Shoulders and legs must be covered when entering the Virgin Mary's House. All shopping and/or carpet demonstrations are optional and at the guest's discretion.

KUS302 Ephesus Landmarks & The Terrace Houses - Homes of the Wealthy Ephesians

Duration: 4 Hours

Activity Level: Moderate

Meal: None

PRICE: COMPLIMENTARY

Enjoy a visit to the Ancient Roman provincial capital and as a bonus, visit newly excavated dwellings that were home to the wealthy and important people of the city as evidenced by how finely they were decorated with exquisite mosaics and frescoes.

Ephesus was an important religious center, second only to Athens and later, Jerusalem. It kept its importance due to its well-placed port and its religious significance, which the locals were not above exploiting. Following Emperor Augustus' proclamation that Ephesus was the capital of the Asian Province in 27 BC, the city became one of the most important in the extended Roman Empire. The majority of the buildings you will see date from the era when Ephesus had nearly one quarter million inhabitants.

Your visit to the Ephesus site begins at the Magnesia Gate where your guide will then lead you on a leisurely downhill walk through the marble streets of the city. The significance of the sites you are seeing will be explained by the guide and

those include the Gymnasium, Odeon, Fountain of Trajan, Temple of Hadrian, Upper Agora, Town hall, Roman baths, a Byzantine house, and surprisingly efficient public toilets. And of course, no visit to Ephesus is complete without seeing the Library of Celsus. This two-story edifice is finely decorated with columns and sculptures and was erected in 135 BC.

A short walk away you will find the 24,000 seat Great Amphitheater where it is believed St. Paul preached to the Ephesians, imploring them to give up their worship of Artemis and embrace the Christian faith. The perfect acoustics of the theater still make it a viable venue for magical musical performances today.

The highlight of your visit may well be entry into the newly opened portion of the historic Terrace Houses which are located on the slopes behind Ephesus, opposite the Temple of Hadrian. These houses were inhabited by wealthy Ephesians and were finely decorated. Archaeological evidence points to them being built in the period of Augustus and continued to be inhabited until the 7th-century AD.

Returning to Kusadasi, there will be time for exploring on your own, shopping or an optional carpet demonstration.

Special Note: This tour includes nearly 2 hours of moderate walking/standing that includes numerous steps and uneven surfaces. Some of the steps are glass. The tour is not available to wheelchair guests and is not considered suitable for those with walking difficulties or those with a fear of heights. We recommend wearing weather appropriate comfortable clothing, walking shoes, a sun cap, sunglasses, and sunscreen. Shoulders and legs must be covered when entering religious sites. All shopping and/or carpet demonstrations are optional and at the guest's discretion.

KUS309 Exclusive Behind-the-Scenes tour of Ephesus with an Archaeological Expert

Duration: 5 Hours

Activity Level: Strenuous

Meal: None

PRICE: US\$119.00

Explore behind-the-scenes at Ephesus with an archaeological expert as your guide and see areas not usually included in the public tours.

Travel from the pier to St. Paul's prison, which is also known as the Watch Tower. Built by the Romans, its location on a hill by the seaside made it an ideal place to protect the surrounding peninsula. It is unclear if it served as a prison for St. Paul, but it is believed he was held here to protect him from the protests against him taking place in the Great Theater. Your visit here is exclusive in that this area is

not open to the general public. The 10-minute walk up the hill is well worth the effort as it affords you a wonderful panoramic view of Ephesus and the surrounding area.

From here, drive to the upper gate of Ephesus where you will commence your guided walking tour of the site conducted by an archaeological expert. See the Grand Theater and Celsius Library and then continue on to the Agora, Domitian Temple, and Curetes Street. The information imparted by the archaeologist gives added insight into what you are viewing as it goes beyond the normal tour narration.

Continuing on, make your way to the Terrace Houses using a less-traveled path up the slope to the houses. Situated across from the Hadrian Temple, these homes of the wealthy Ephesians provide a significant look into their daily lives during the Roman period. Next, your behind-the-scenes walk will pass near St. Paul's Cave, unearthing secret locations in Ephesus along with showcasing some incredible views of the site.

Leaving Ephesus behind, you will next drive to the House of the Virgin Mary. Archaeological evidence dates the small house back to the 6th century; however, the foundations date back to the 1st century. Although there is no conclusive evidence Mary ever lived here, it has become a Catholic shrine and been visited by several Catholic popes and Catholic pilgrims. Afterwards, you will drive back to the pier in Kusadasi.

Special Note: This tour includes approximately 2 ½ hours of moderate to strenuous walking/standing that includes a significant incline, numerous steps, and uneven surfaces to negotiate. The tour is not available to wheelchair guests or those with other walking difficulties or mobility concerns. We recommend wearing weather appropriate comfortable clothing; walking shoes with a closed toe and non-slip sole; a sun cap; sunglasses and sunscreen. We further recommend bringing a bottle of water from the ship. Shoulders, legs, and midribs must be covered when entering religious sites. All shopping and/or carpet demonstrations are optional and at the guest's discretion.

KUS310 Historic Sirince Village and the House of the Virgin Mary

Duration: 4 Hours

Activity Level: Moderate

Meal: None

PRICE: COMPLIMENTARY

While any visit to Kusadasi usually includes time at Ephesus, there are a multitude of wonderful attractions to see beyond there. This tour introduces you to two of those that are equally worth exploring and well-suited for those who have visited Ephesus in the past.

Leaving from the port, you will first set out for the House of the Virgin Mary. It's a pleasant drive out to Mt. Pagus where a small, tree-lined path leads to a small stone cottage. Clinging to the side of Bulbul Mountain, it is believed to be the last home of the Virgin Mary, who traveled there in the company of St. John sometime around 40 A.D. near the end of her life. The home was officially recognized by the Vatican in 1896 after being described in visions by a German nun who had never seen it. In fact, it had yet to be discovered at that time. Today, both Christians and Muslims make religious pilgrimages to the site. Beside the house you will find a fountain where a sacred spring feeds three founts that each bestow a unique blessing upon visitors.

Continue from here through the countryside to the nearby village of Sirince which is a perfect blend of Turkish and Greek cultures. Enjoy free time here to explore on your own, strolling its narrow streets with their quaint village homes and soaking up the atmosphere of authentic village life. Famous for its fruit wines, you will be given an opportunity to sample some of them at a local café.

Following your time in Sirince, you will transfer back to Kusadasi where you will have the option of being dropped off in the center of town or returning directly to the pier.

Special Note: This tour includes approximately 2-hours of moderate walking/standing that includes some steps and uneven surfaces. The tour is not available to wheelchair guests and may not be suitable for those with walking difficulties. We recommend wearing weather appropriate comfortable clothing; flat walking shoes; a sun cap; sunglasses and sunscreen. Shoulders, legs, and midriffs must be covered when entering religious sites.

KUS311 The Ancient Ionian City of Miletus & the Sanctuary of Didyma

Duration: 4.5 Hours

Activity Level: Moderate

Meal: None

PRICE: US\$79.00

Spend time discovering two important and historical cities in the Kusadasi region, Didyma and Miletus.

Start with a scenic 1-hour drive from the pier to Miletus, thought to be the oldest of the Ionian cities. The city was home not only to explorers and traders, but many well-known intellectuals as well, such as Anaximenes who contemplated the heavens; Anaximander, the father of geography; Thales, a pioneer of astronomy and geometry who calculated the height of the Pyramids in Egypt; and Hippodamus, the ancestor of modern city planners whose work you can observe in Miletus' organized, grid-like pattern of streets. Once a great seafaring city, visitors today may wonder how that was given it is 5-miles from the sea. The answer is the Meander River which over the course of time left large deposits of silt that gradually built up the shoreline and distanced the city from the sea. Your visit here will last approximately 1-hour, during which you can wander its ancient streets and the ruins of the amphitheater.

Continuing, travel to Didyma and see its famous Temple of Apollo. For as long as one can remember, there has always been a challenge to build the next "world's tallest building" and that seems to be what the past inhabitants were striving for as they built the temple. Taking over 500 years to build, it was still never completed due to huge costs and engineering setbacks. Travelers from around the ancient world came here to seek the counsel of an oracle who was the voice of Apollo, the God who could not tell a lie. While only 3 of the original 100 columns remains, it is still possible to imagine the impressive beauty of the site that was the third largest man-made structure in the ancient world.

Returning to Kusadasi, you will have the option of being dropped off in the center of town or returning directly to the pier.

Special Note: This tour includes just under 2-hours of moderate walking/standing that includes some steps and uneven surfaces. The tour is not available to wheelchair guests and may not be suitable for those with walking difficulties. We recommend wearing weather appropriate comfortable clothing; flat walking shoes; a sun cap; sunglasses and sunscreen.

PRICE: US\$225.00

This all-encompassing full day experience covers all of the major highlights visitors to Sochi won't want to miss. Be introduced to Russian tea culture, visit historical Stalin's Dacha, and see sites where the 2014 Winter Olympic Games were held.

The day begins with a drive outside the city to the Dagomys Tea Plantation where you will learn about the culture surrounding the history and production of Russian tea and its importance to the local economy. It is not common for tea to be grown in colder northern climates, but special frost-resistant varieties have been created by Russians and their efforts produce some outstanding teas.

Traveling back to Sochi, you'll see its historic town center, the Winter Theater, pass along the seaport and Primorsky Boulevard and have a view of Sochi's magnificent spas that resemble palaces more than health resorts. Then it's back to the past as you drive up into the green hills that overlook Sochi's beaches for a visit to Stalin's Dacha. Nestled amongst towering California pine trees is the imposing two-story villa that was once Joseph Stalin's secret dacha. The subdued grey-green color on its façade was intentional, serving to camouflage it from prying eyes, unfriendly visitors, or possible artillery attacks from the sea. Built in 1937, this stately residence with its shaded verandahs is now open to the public and serves as a remarkable and historic hotel for well-connected visitors to Sochi. The villa remains nearly as it was in Stalin's time, with most of its original fixtures still in place. There is even a life-sized wax image of Stalin to be found here, seated at his table before a silver inkpot that was presented to him by Mao Zedong.

Following your visit to the dacha, enjoy lunch at a local restaurant and then return to modern day with a visit to Olympic Park. Take part in a tour conducted by golf cart as you view memorable locations from the 2014 Winter Olympics that include the Olympic Stadium Bolshoy Ice Dome, the Iceberg Skating Palace, Shayba Arena, Adler Arena, Ice Cube Curling Center, and the main Media Center. Included is the first Formula 1 Grand Prix racing circuit in Russia. Time will be allowed for photos at the Olympic Cauldron, Medals Plaza Square, Wall of Champions, the Olympic Rings and in front of several of the venues.

After your visit to Olympic Park, transfer back to the pier.

Special Note: This tour includes approximately 2 ½ hours of moderate walking that includes a few steps. The tour is available to wheelchair guests who have a collapsible wheelchair, are able to make their own way on and off the transportation and have a companion to assist them.
