ISP-007 HALIBUT FISHING**Duration: 3.50 Hrs Tour Price: \$299.00****Retail Price: \$449.00****Date: September 23, 2023 10:30 AM**

Go fishing for halibut in Icy Strait, where these giant flatfish are voraciously feeding throughout the summer. Meeting at the dock, you will embark your comfortable cabin cruiser and receive a safety orientation before taking the 20-30 minute ride out to the premier fishing area in Icy Strait. These waters are teeming with halibut as they serve as the main migration corridor for halibut traveling from the Pacific to their summer feeding grounds and spawning streams in southeast Alaska. The largest Pacific flatfish, Alaskan halibut are renowned for their mammoth size. The former state record halibut—a 440-pound whopper—was landed near Hoonah, and catching a 100-pounder in Icy Strait isn't unusual. Imagine the thrill of hooking one of these monster fish and reeling it in from the depths. It's an amazing experience because halibut are longer than most flatfishes with a width one third of their length, so that husky girth produces a lot of resistance. You will spend approximately 2.5 hours on the water, fishing with bait that may include herring, salmon and octopus, which is one of the halibut's favorite meals. If you catch one, you'll notice that halibut has smooth scales, a light-colored bottom side and a darker top. The colors are a natural camouflage that mimics the hues of the ocean floor and water. Not only are these waters home to halibut, they are also filled with whales, sea lion, and seals so come prepared with your camera and binoculars. At the conclusion of your fishing time, you will head back to the pier where your tour concludes.

- Fish for mammoth halibut in an area where 100-pounders are often caught.
- Look for whales, sea lions and seals as you fish
- Enjoy the comforts of a cabin cruiser with all the tackle and gear provided.
- Wear flat comfortable shoes with non-slip soles.
- Dress warmly in layers.
- Bring waterproof outerwear, as you may be exposed to the elements.
- Come prepared with a camera to document your fish story.

Persons who are prone to sea sickness should take appropriate pre-emptive measures before commencing the tour. Minimum age for participation is six years old and children under 18 years of age must be accompanied by a parent or adult guardian. Explore two of Sendai's most impressive landmarks: the castle from which the city's founder ruled and the Shinto shrine that he ordered built, which has become a national treasure. After departing from the pier, you will drive through Sendai, a city that legendary feudal lord Date Masamune founded around 1600. He ruled from Aoba Castle, which perches on a wooded plateau above Sendai, offering great views of the city. Over the centuries, Aoba Castle was repeatedly damaged by fires and earthquakes and then almost completely destroyed by carpeting bombing in World War II. However, the remnants of its outer stone walls and guard tower are original and important enough for the castle to be designated a National Historic Monument. While touring the castle, you will see a statue of Date Masamune on horseback, wearing his iconic battle helmet adorned with a crescent-shaped moon. He was a fierce warrior known as the One-Eyed Dragon because he lost an eye to smallpox as a child. Continuing on, you will next visit nearby Osaki Hachimangu shrine, which Date Masamune also ordered to be constructed in the early 17th century. The shrine's deity is the Shinto god of war that is considered to be the protector of Sendai. The greatest craftsmen of the time built the shrine, and it remains a Momoyama-style architectural masterpiece. It features elaborately decorated gables and is painted with black lacquer that lends it a dignified appearance. In contrast, the main worship hall is understated. Please note: This tour includes approximately 2-hours of walking/standing on mostly flat terrain, with approximately 100 steps to negotiate at Osaki Hachiman Shrine. This tour is not recommended for wheel chair guests or those with walking or mobility concerns. Weather appropriate clothing, adequate sun protection and flat, comfortable walking shoes are recommended.
